

Mahoney Statement on Temporary Tax Relief Act of 2007

Mahoney Speaks Against Alternative Minimum Tax

(November 9, 2007)

(Washington, DC) - "I applaud our leadership for their work to ensure that the Alternative Minimum Tax does not hit middle and working class families in a way that would not increase our national debt. I voted against the AMT bill today because changing the taxation on carried interest sends the wrong message that Congress values money more the ingenuity - with the unintended consequences potentially being a constriction of private capital to America's small businesses," said Congressman Tim Mahoney (FL-16).
