

Homeland Security

In a post 9/11 world, Congressman Mahoney recognizes that we need to do everything in our power to protect our homeland. He will fight to ensure that all cargo containers coming into our ports are screened, that our airports are safe, and that our first responders have the funding and equipment they need to keep our communities safe. In order to keep America secure, Congressman Mahoney believes we need to secure our borders.

Congressman Mahoney joins local officials at the Port of Palm Beach to discuss port security
